The Prism Healthcare Tablet is a medical professional's choice for hygienic office use, EMR management, and smart operation in any setting. The TMT-7165-13 displays beautifully on a 1080p high-resolution PCAP touch screen. Also, the 13" screen boasts a high brightness of 1000 nits, making it readable in sunlight or under bright operating room lights. The antimicrobial enclosure, equipped with a carry handle, houses a magnesium chassis, which provides greater strength at a lighter weight than aluminum. Further, the Healthcare Tablet's accessible backside bay allows for hot-swapping the battery without interrupting use. With ease of use, transport, and maintenance, Prism lets you see portable healthcare in a whole different light.
