The TP-5710-17 is ideal for industrial environments where high computing power is needed. This panel PC comes equipped with a high TDP processor that we designed into a fanless chassis, encouraging more computing power while still running efficiently and quietly. The 17" design can come in either resistive or PCap touchscreens, with an IP66 rated front bezel to protect from spray or splashes. This is a modular Panel PC where the front monitor can be taken off for easy maintenance and cleaning. The Intel 6-Core i5 CPU allows for Windows 11 capabilities and improves the efficiency of your business with faster processing power.
