The TP-7310-22 is a blazing fast performance panel PC with a bright HD display in PCAP or resistive touch options. What sets this series apart is its near-limitless PCIe expansion board, which offers robust support for the highest-end GPUs, NPUs, and added I/Os. The powerful 21.5" Halcyon panel computer is designed to be customized for any specified needs. Other standout features include the latest high-speed DDR5 RAM as well as an integrated power supply, eliminating the need for any bulky box adapters weighing down the power cable. The strong processing of the Intel® 14th Gen CPU coupled with its customizable versatility makes Halcyon a powerful all-in-one solution.
