The 12.1" Panel PC from the TP-4800 Series is designed to be the pinnacle its kind, sure to exceed your expectations wherever it's needed. Its fanless Celeron processor sits right at the perfect balance of strong performance, great value, and efficient power consumption. Our [slimmest industrial panel PC](#) yet requires up to 20% less installation space compared to traditional models, making it ideal for environments where every inch matters. The elegant construction maintains its durable quality with a fanless cooling design and an IP66 rated front bezel, built to withstand year after year of industrial demands. Finally, a direct bonded display provides a precisely responsive touch and great visual clarity, with either PCAP or resistive touch options. Teguar sets the bar high when it comes to screen visibility in the industrial setting. Your operators will notice the difference with this bright, high-resolution display, designed to deliver exceptional user experience even in challenging environments. For efficiency, durability, and maximum space optimization, look no further than the TP-4800-12, designed from end to end to be the ultimate panel PC solution.
